Contego ^{BS}

Protects when you need it!

Advanced technology and superior materials ensure long term satisfaction.

The folding arms are made of powder coated extruded aluminum and withstand heavy loads. All screws and connecting elements are made of high-quality stainless steel.

Support Bar

The backbone of the awning is a 40mm steel square bar with 2mm walls. Galvanized and powder coated combined to ensure strength and durability.

Arms

The extruded aluminum arms have a height profile of 70/65mm and sectional thickness of 2.5mm on the back profile and 2mm on the front.

Front Bar

The front bar is one piece of extruded aluminum with 2mm thickness.

The Contego BS provides long-lasting durability, resilience and resistance to weathering.

With protective hood cover

Vario Valance
For additional privacy or when the sun is low the Contego BS features the availability of a vario valance. Drops up to 7'.

Widths: 8' to 23'

Projections: 6'7", 8'2", 9'10", 11'6" and 13'1"

INSTALLED ANYWAY YOU NEED

Wall, ceiling or rafter mounted: the heavy duty extruded aluminum mounting brackets are designed to meet all installation requirements. Eavestrough mount option also available.

Rafter Mount
